

Evotec extends integrated drug discovery alliance with Genentech

Hamburg, Germany, 24 May 2016:

Evotec AG (Frankfurt Stock Exchange: EVT, TecDAX, ISIN: DE0005664809) today announced that Genentech, a member of the Roche Group, has extended its integrated drug discovery alliance with Evotec for a further three years to discover novel small molecule therapeutics.

The collaboration initiated in May 2010 was renewed in 2013 and this second extension further validates the value of Evotec's state-of-the-art technology platform and broad expertise in drug discovery. Activities performed within the collaboration include pharmacology, screening, chemistry, proteomics and structural biology.

Dr Mario Polywka, Chief Operating Officer of Evotec, commented: "We are delighted that once again we have extended this fruitful collaboration beyond its 7th year and this latest extension is validation of the value Evotec brings to this partnership. With an increasing portfolio of activities, the scientific teams from both companies are working closely together to effectively and efficiently advance Genentech's discovery projects."

No financial details were disclosed.

ABOUT EVOTEC AG

Evotec is a drug discovery alliance and development partnership company focused on rapidly progressing innovative product approaches with leading pharmaceutical and biotechnology companies, academics, patient advocacy groups and venture capitalists. We operate worldwide providing the highest quality stand-alone and integrated drug discovery solutions, covering all activities from target-to-clinic to meet the industry's need for innovation and efficiency in drug discovery (EVT Execute). The Company has established a unique position by assembling top-class scientific experts and integrating state-of-the-art technologies as well as substantial experience and expertise in key therapeutic areas including neuroscience, diabetes and complications of diabetes, pain and inflammation, oncology and infectious diseases. On this basis, Evotec has built a broad and deep pipeline of more than 70 partnered product opportunities at clinical, pre-clinical and discovery stages (EVT Innovate). Evotec has established multiple long-term discovery alliances with partners including Bayer, CHDI or UCB and development partnerships with e.g. Janssen Pharmaceuticals in the field of Alzheimer's disease, with MedImmune and Sanofi in the field of diabetes, with Pfizer in the field of tissue fibrosis and with Second Genome in the field of inflammatory diseases.
