Evotec expands compound management capability to East Coast of the United States

Hamburg, Germany – 29 April 2013: Evotec AG (Frankfurt Stock Exchange: EVT, TecDAX, ISIN: DE0005664809) today announced that Evotec (US) Inc. has executed a multi-year lease on a facility specifically designed to expand the offering of its Compound Management Services on the East Coast of the United States.

The facility, located in Branford Connecticut, is strategically positioned to support the strong presence of Evotec's drug discovery collaborators along the East Coast of the United States. The new facility will be modern, cost effective and scalable for continued growth. The investment into industry leading technologies, specifically aimed at library management, and the access to incremental space will enable Evotec to better support the East Coast pharmaceutical and biopharmaceutical industry for the coming years. The facility will be fully operational early Q3 2013 and will complement the existing facility in South San Francisco which will continue to be fully operational and serve existing clients.

Scott Snyder, Executive Vice President Compound Management of Evotec, commented: "This is an important strategic expansion of our EVT Execute compound management offering which Evotec first acquired in South San Francisco in 2011. The significant investment will enable Evotec to better compete for East Coast compound management opportunities and continue to provide the very best services and solutions to our partners."

ABOUT EVOTEC AG

Evotec is a drug discovery alliance and development partnership company focused on rapidly progressing innovative product approaches with leading pharmaceutical and biotechnology companies. We operate worldwide providing the highest quality stand-alone and integrated drug discovery solutions, covering all activities from target-to-clinic. The Company has established a unique position by assembling top-class scientific experts and integrating state-of-the-art technologies as well as substantial experience and expertise in key therapeutic areas including neuroscience, pain, metabolic diseases as well as oncology and inflammation. Evotec has long-term discovery alliances with partners including Bayer, Boehringer Ingelheim, CHDI, Genentech, Janssen Pharmaceuticals, MedImmune/AstraZeneca and Ono Pharmaceutical. In addition, the Company has existing development partnerships and product candidates both in clinical and pre-clinical development. These include partnerships with Boehringer Ingelheim, MedImmune and Andromeda (Teva) in the field of diabetes, with Janssen Pharmaceuticals in the field of depression and with Roche in the field of Alzheimer's disease.
