
Evotec SE

ESG AT EVOTEC

Sustainability has recently become a more and more important driver in the capital markets. Investors and analysts are increasingly including environmental, social and governance (ESG) aspects in their investment recommendations and decisions. Evotec's non-financial performance is already analysed by various rating agencies. An overview of the core ratings and the current valuation is available on our website www.evotec.com. The information you will find there refers to the following ratings:

- EcoVadis Sustainability Assessment
- ISS ESG Corporate Rating
- MSCI ESG Ratings
- Sustainalytics ESG Risk Rating
- Vigeo Eiris ESG Overall Score

For the financial year 2021, Evotec will further improve its reporting structure and produce a comprehensive sustainability report aligned with standards of the Global Reporting Initiative (GRI). The sustainability report is expected to be published the same day as the Annual Report 2021.
